7.5 Bathroom: Turn on the extractor when using the shower so dampness and mould is prevented.

7.6 Visitors: The rooms are for individuals, "not for couples", unless previously agreed. Maximum stay is three nights a week (ideally weekends). No more than once a month.

7.12 Plan of the house

8. Health and Safety - 141

8.1 Fire Escape: Rather than attempt to put out a fire it is safer to leave the house and call 999. The two fire escapes are the front door and the back door. There are call points at both these exits, which should be activated to ensure all other persons in the house are aware they need to evacuate the house. If a call point is activated by mistake the key is on top of the call point box to deactivate it place the key in the hole and turn it, replace the key on top of the box. All doors in the house are 30 minute fire protection doors which have a smoke seal around them.

8.2 Smoke Alarm: There is a 2 Zone fire detection in the house, if the alarm sounds in a non emergency (there is no fire) to silence it the instructions to deactivate it are shown below and on the panel in the hallway.

If the alarm goes off, please inform us as it needs to be written in the log book.

8.3 The fire extinguishers and fire blanket: There are fire extinguishers on the walls in the hallway at each level of the house, in the kitchen there is an extinguisher and fire blanket. If used you must inform us straight away.

8.4 The mains water stop cock: is behind the washing machine, as marked.

8.5 The main gas stop: is outside the front of the house in a white box, you will need a yellow key to open, this is in the red box in the dining room with the manuals.

8.6 The electricity fuse box: is under the stairs near to the electricity metre.

8.7 The water softener: is under the sink. The only thing it needs is blocks of salt placing in the front. The cleaner will do this, but please keep an eye on it otherwise hard water (scale) will block up the boiler leading to problems with hot water and heating. Also, due to the water being so soft you will notice you don't need to use as much washing powder, washing up liquid, etc.

8.8 The drinking water: is a single tap on the left of the normal tap at the kitchen sink. Is not harmful to drink the water from the normal tap, but it is advised that babies and old people especially with heart conditions don't drink it on a regular basis (has a higher salt content).

8.9 Pressure in the boiler: Sometimes the boiler requires more water pressure. The black needle on the boiler (behind the flap) shows the amount of pressure in the boiler. It should always be between 1 and 2 bars, ideally 1.5. If not, the boiler will not work well or sound strange. To put more pressure in the boiler turn on the tap behind the washing machine, as marked. The tap must be turned off again after increasing the pressure. Please don't forget this.

8.10 Front door: Please check the front door is locked when leave and entering the house. Door Lock always UP vertically on the inside knob, when you Leave or Enter.

8.11 Manuals: All the manuals are in a red box on the top shelf in the dining room (Fridge, Washer/Drier, TV, etc). Also you can find them in our website.

8.12 Internet: Sometimes the internet stops working, this problem is usually solved by restarting the modem, router and hub. Do this by turning everything off by disconnecting everything individually by pulling out the power cables from the back of the modem, router and hub. First connect the modem power cable back, wait for two minutes until all the lights are stable. Then reconnect the router, again wait for the lights to stay on. Finally, connect the hub.

8.13 The lights for the back garden: Are in the porch, at the bottom right hand side as you walk out of the back door. Please take care not to turn off the both switches, one is for the fridge in the shed.

8.14 Electric Shower: the shower can be temperamental, start on a low temperature setting and gradually turn the temperature up.

8.15 Safe Box: We will give you a 4 digit code. To open the door of the safe, press the 'START' button, Input your code **** immediately and confirm by pressing the 'START' button, the green light will be on with the display showing 'OPEN'. Open the door using the knob within 4 seconds.

If you want to change the code follow these steps:

- With the door of the safe open, press the red button on the inside of the door and the display will show 'SET CODE'.
- Press from 3 to 8 numbers that you wish to use as a new user code, and confirm by pressing the 'START' button.
- The display will show 'IN' and your inputted numbers. And this means that the new user code is confirmed.

If you change the code, when you move out of the house please reset to the original code.

8.16 Phone: All landline Local and national calls are free up to one hour, if you want to speak longer please disconnect and call again, also **DO NOT USE NUMBERS STARTING WITH 084 or 087 etc.**, these are not geographical numbers and are not free, only numbers starting with 01 or 02 are free. This website is great for finding the alternative local numbers: www.saynoto0870.com

8.17 Security Camera: There is a security camera viewing the front door, working 24h.

8.18 Lost/Stolen Keys: **REPORT ALL LOST/STOLEN KEY IMMEDIATELY TO ME.** Lost/stolen key replacement must be made by the authorised manufacture provider. Ordinary copy will damage the WIFI lock installed in the front door. This cost will be covered by the person who damaged the lock.
